

Two Way New Minor Forcing

In the auction 1m – 1M; 1NT

2C is either weak in diamonds (opener must bid 2D here) or various game forcing hands
2D is used with invitational hands with responses similar to New Minor Forcing.

The version I played with PeK used the jump to 3C as weak with clubs.

I slightly prefer to use 2NT as a transfer to 3C allowing more options.

Jump shifts show game forcing 5-5

The version I learned had a jump to 3M showing a 7 card suit. It might be better to have it be a very strong 6+ suit (ie trumps).

N.B. The rest of the world uses 2C for the invites and 2D for the game forces.
